9 November 2015

Dear Friends and Fellow Laborers,

While those who understand the annual holy days (the commanded assemblies of God) were keeping the Feast of Tabernacles, which pictures the 1000-year millennial rule of Jesus Christ on earth from His capital in Jerusalem (Isaiah 11:1-9, Revelation 20:1-4, Isaiah 9:6, Daniel 2:44-45), the best—some would say “worst”—attempt at this world’s solution for peace among nations was very busy forming their own counterfeit of that kingdom. This counterfeit kingdom of what the Bible calls the “Beast” was rapidly being set in motion without much media coverage. Other than the Pope’s speech calling for peace, the media said little.

While the real kingdom of peace to be brought by Jesus, the true Messiah, was being rehearsed in meeting halls of Sabbath and holy day keepers around the globe, the kingdom of the false messiah was being formally set up. The blueprint for this false kingdom is called the:

UNITED NATIONS 2030 AGENDA—A BLUEPRINT FOR GOVERNING THE ENTIRE PLANET

EARTH CONSTITUTION; GLOBAL COUNCIL; PLANETARY COURT (See page 5)

United Nations General Assembly Hall in the UN Headquarters,
New York, NY¹

Pope Francis²

United Nations Insignia/Flag³

² https://commons.wikimedia.org/wiki/File:Pope_Francis_in_March_2013.jpg

³ https://commons.wikimedia.org/wiki/File:Small_Flag_of_the_United_Nations_ZP.svg

We recently kept the Feast of Tabernacles for eight days, which pictures the future perfect Kingdom of God on this earth with Jesus Christ as our Savior, Anointed King, and Lord.

Just before the Feast of Tabernacles, Pope Francis spoke at the U.N. and opened up with a speech launching the United Nations “2030 Agenda” conference (23rd – 27th September). The plan is bent on “transforming our world” (quote from the preamble of the founding U.N. Document.) Read further for more details.

How many of you have read the book *1984* by George Orwell? It was published in 1949 and the setting was a future world ruled by a tyrannical government that controlled all aspects of one’s life. *1984* popularized the adjective “Orwellian,” which describes official deception, secret surveillance, and manipulation of recorded history by a totalitarian state. It is a “must read” if you have not already read it.

Why am I telling you this? Because, much of what George Orwell predicted to happen in 1984 is, instead, unfolding today under our very noses!

In late September, while all eyes were on U.S. Presidential debates, the United Nations snuck through the approval and funding process of a very alarming project. It is known as the *2030 Agenda for Global Sustainability* and seeks to control all humanity on the planet in the name of “peace,” “equality for all,” “the end of poverty worldwide,” and “protection of the environment.” Have you heard these catchphrases before? Sounds noble, doesn’t it?

Let’s look at a quote from the preamble of the founding U.N. document, “Transforming our world: the 2030 Agenda for Sustainable Development”:

*This Agenda is a plan of action for people, planet and prosperity. It also seeks to strengthen universal peace in larger freedom. We recognise that eradicating poverty in all its forms and dimensions, including extreme poverty, is the greatest global challenge and an indispensable requirement for sustainable development. All countries and all stakeholders, acting in collaborative partnership, will implement this plan.*⁴

Sounds good, doesn’t it? Universal peace, eradicating poverty in all its forms, all countries will collaborate. What wonderful sounding goals.

Beware! The Bible tells us that even the Devil himself can appear to us disguised as an angel of light!⁵

Peace and prosperity for all sounds great! The problem is that none of these things will be achieved until the TRUE Messiah comes to set up His Kingdom in Jerusalem. Any human endeavor on a world scale is a counterfeit kingdom.

Some of you may have heard of Michael Snyder. He is a well-known writer who specializes in behind-the-scenes events that are leading up to a New World Order.

⁴ <https://sustainabledevelopment.un.org/post2015/transformingourworld>

⁵ 2 Corinthians 11:14

Michael Snyder has written an article that has appeared in some form in various blog sites and online magazines. It is entitled “The 2030 Agenda: This Month The UN Launches A Blueprint For A New World Order With The Help Of The Pope.” Here are some quotes:

Did you know that the UN is planning to launch a “new universal agenda” for humanity in September 2015? That phrase does not come from me – it is actually right [in the very first paragraph](#) of the official document that every UN member nation will formally approve at a conference later this month. The entire planet is going to be committing to work toward 17 sustainable development goals and 169 specific sustainable development targets, and yet there has been almost a total media blackout about this here in the United States. The UN document promises that this plan will “[transform our world for the better by 2030](#)“, and yet very few Americans have even heard of the 2030 Agenda at this point.

...the 2030 Agenda addresses virtually all areas of human activity. It truly is a blueprint for global governance.

*The United Nations General Assembly ... approved a resolution sending the draft ‘2030 Agenda for Sustainable Development’ to Member States for adoption later this month, bringing the international community “to the cusp of decisions that can help realize the... **dream of a world of peace and dignity for all,**” according to [Secretary-General Ban Ki-moon](#).*

“Today is the start of a new era. We have travelled a long way together to reach this turning point,” [declared](#) Mr. Ban, recounting the path the international community has taken over the 15 years since the adoption of the landmark Millennium Development Goals ([MDGs](#)) towards crafting a set of new, post-2015 sustainability goals that will aim to ensure the long-term well-being of our planet and its people.

Notice the verbage from Secretary-General Ban Ki-moon! For instance, the landmark Millennium Development Goals (MDGs) towards crafting a set of new, post-2015 sustainability goals that will aim to ensure the long-term well-being of our planet and its people.

It all sounds very Messianic, doesn't it? I wonder who the false messiah will be?

Here are some more quotes from Mr. Snyder's article:

And later this month, nearly every nation on the entire planet is going to be signing up for this new agenda. The general population of the planet is going to be told that this agenda is “voluntary” and that it is all about “ending poverty” and “fighting climate change”, but that is not the full story. Unfortunately, there is so much positive spin around this plan that most people will not be able to see through it.

...the UN chief said [Agenda 2030](#) aims high, seeking to put people at the centre of development; foster human well-being, prosperity, peace and justice on a healthy planet and pursue respect for the human rights of all people and gender equality.

Who doesn't “dream of a world of peace and dignity for all”? They make it all sound so wonderful and non-threatening. They make it sound like we are about to enter a global utopia in which poverty and inequality will finally be eradicated.

Those of us who are biblically attuned will remember the “angel of light.”⁶ Those who seek to enslave all nations to one world government always appear as angels of light.

President Ronald Reagan understood that the last thing we want is for government to play the role of an Orwellian “Big Brother” coming to help us run our lives. He said, “The most terrifying words in the English language are: I'm from the government and I'm here to help.” President Reagan also said, “Government's first duty is to protect the people, not run their lives.”

If the whole world is going to be fooled into following this New World Order, then the world must be deceived into thinking it is all some wonderful achievement because of humanity’s brotherly love for one another and a common goal of world peace and prosperity for all.

In another article, entitled “Pope Francis Calls For A New Global Political Authority To Save Humanity,”⁷ Michael Snyder goes on to talk about how the Pope is helping establish this U.N. Agenda:

Pope Francis says that global warming is a fact and that a new global political authority is necessary in order to save humanity from utter disaster. The new encyclical that was scheduled to be released on Thursday has been leaked, and it is being reported that this new global political authority that Pope Francis envisions would be in charge of “the reduction of pollution and the development of poor countries and regions”. The funny thing is that this sounds very much in line with the new sustainable development agenda that is going to be launched at the United Nations [in September](#)

This radical new agenda is already being called “Agenda 21 on steroids” because it goes so much farther than Agenda 21 ever did. The new UN agenda [does not just address the environment](#) – it also addresses issues such as poverty, agriculture, education and gender equality. It is essentially a blueprint for governing the entire planet, and that sounds very much like what Pope Francis also wants. In fact, Pope Francis is going to give the speech that kicks off the UN conference in September where this new sustainable agenda will be launched.

This took place September 25-27 and was just two days before the Feast of Tabernacles, which pictures the true millennial agenda of the future of the planet. Continuing with Mr. Snyder’s commentary:

For some reason, this Pope has decided to make the fight against climate change the central pillar of his papacy, and he is working very hard to unite as much of humanity as possible to get behind that effort.

Pope Francis will this week call for changes in lifestyles and energy consumption to avert the “unprecedented destruction of the ecosystem” before the end of this century, according to a leaked draft of a papal encyclical⁸. In a document released by an Italian magazine on Monday, the pontiff will warn that failure to act would have “grave consequences for all of us”.

⁶ IBID

⁷ Pope Francis Calls For A New Global Political Authority To Save Humanity, Michael Snyder, June 16th, 2015, <http://endoftheamericandream.com/archives/pope-francis-calls-for-a-new-global-political-authority-to-save-humanity>

⁸ Laudato si' (24 May 2015)

Francis also called for a new global political authority tasked with “tackling ... the reduction of pollution and the development of poor countries and regions”. His appeal echoed that of his predecessor, Pope Benedict XVI, who in a 2009 encyclical proposed a kind of super-UN to deal with the world’s economic problems and injustices.

On the stage with Pope Francis when he formally released his encyclical, was Professor John Schellnhuber,⁹ a German environmentalist with radical views on climate change. He believes that our planet is overpopulated by at least six billion people. He also believes that we need a new global political authority with an “Earth Constitution,” a “Global Council” directly elected by the people of the planet, and a “Planetary Court” that would be above all other courts on the globe.

Those who are working toward the goal of a New World Order with a single world government, a single currency, a single court system and set of laws, and—according to the prophecies of the Holy Bible—a single world religion, have decided that global warming or climate change is the path to worldwide control of all nations.

The gong beaters for climate change believe that the so-called global warming is being brought about by carbon emissions. And since practically all human activities release carbon into the atmosphere, then all forms of human activities must be controlled and regulated by a world government.

Most of the world has bought into the climate change propaganda. In America, many actually believe that climate change is the greatest threat that humanity currently faces.

Now the U.N. is spearheading an unprecedented grab for power led by world leaders, including Pope Francis, all in the name of peace and justice for all.

Professor Hans Joachim "John" Schellnhuber¹⁰

666

Revelation 13:16-17

And he causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads: And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name.

Unknown to most in America, the U.N. is implementing a biometric I.D. for all humanity. All this is under the radar because advocates of a New World Order control the media which will not report on it. This is not conspiracy theory—this is for real! In fact, they are starting their implementation right here in Thailand with refugees from Burma.

Michael Snyder writes in his November 1, 2015 article, entitled “The UN Plans To Implement Universal Biometric Identification For All Of Humanity By 2030”:

Did you know that the United Nations intends to have biometric identification cards in the hands of every single man, woman and child on the entire planet by the year 2030? And did you know that a central database in Geneva, Switzerland will be collecting data from many of these cards?

Below is information found on findbiometric.com

The United Nations High Commissioner for Refugees (UNHCR) is moving forward with its [plans to use biometric technology](#) to identify and track refugees, and has selected a vendor for the project. [Accenture](#), an international technology services provider, has won out in the competitive tendering process and will oversee the implementation of the technology in a three-year contract.

The UNHCR will use Accenture’s Biometric Identity Management System (BIMS) for the endeavor. BIMS can be used to collect facial, iris, and fingerprint biometric data, and will also be used to provide many refugees with their only form of official documentation. The system will work in conjunction with Accenture’s [Unique Identity Service Platform \(UISP\)](#) to send this information back to a central database in Geneva, allowing UNHCR offices all over the world to effectively coordinate with the central UNHCR authority in tracking refugees.

This program starts with refugees in Thailand, but does not end there. The goal is to have every man, woman and child on earth to have a biometric I.D.

Snyder writes:

Goal 16.9 of the 2030 Agenda sets [the following target](#): “By 2030, provide legal identity for all, including birth registration.” The Identification for Development (ID4D) initiative was originally launched by the World Bank, and they are proud to be working side by side with the UN to get “legal identity” into the hands of all.

The following comes from [the official website of the World Bank](#):¹¹

*Providing legal identity for all (including birth registration) by 2030 is a target shared by the international community as part of the Sustainable Development Goals (target 16.9). The World Bank Group (WBG) has launched the Identification for Development (ID4D) cross-practice initiative, with the participation of seven GP/CCSAs sharing the same vision and strategic objectives, to help our client countries achieve this goal and with the vision of making everyone count: **ensure a unique legal identity and enable digital ID-based services to all.***

This biometric I.D. idea was spawned at the World Bank. Now the scripture that we will not be able to buy or sell unless we have the mark of the Beast (Revelation 13:17) becomes more real than ever before.

¹¹ <http://www.worldbank.org/en/topic/governance/brief/identification-for-development.print>

A cashless society is being pushed all over the world. Sweden is pulling out all ATM machines in the country, including rural areas. Someday, a biometric I.D. will be required, or you will not be able to do business of any kind. And what information do they put on the I.D.?—fingerprints (*hand*), and facial and iris mapping (*head*). Is this coincidental? I do not think so.

It is rapidly heading our way. The goal is to get everyone into the system so that everyone can be monitored and controlled. This is not conspiracy theory folks, this is prophecy unfolding.

God warned us it was coming. Now it is at our doorstep. We even have a U.N. global police force formed to “help” local police departments fight extremism in America. Pamela Geller recently wrote:

Yesterday, Loretta Lynch announced before the United Nations that the Attorney General’s office, in collaboration with several US cities, will form a global law enforcement initiative called the Strong Cities Network. This is the implementation of UN rules and laws on US soil, bypassing Congress and circumventing the Constitution.¹²

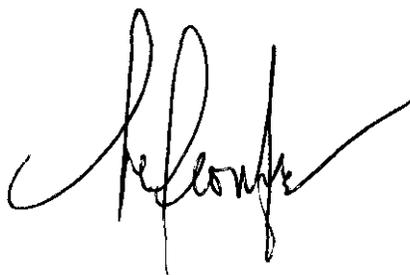

Who is going to define extremism? Who is going to determine what a “hate crime” is? It is soon coming that you can go to jail for quoting the Bible or practicing your Christian faith. Soon we will see foreign “police” units from the U.N. patrolling our streets. Since they are not U.S. military, arresting and detaining U.S. citizens will not violate the constitution.

It is no longer around the corner any more. It is upon us.

God warned us in the writings of the Apostle John as he took dictation from Jesus the Messiah Himself. The warnings are for our good so that we can be prepared.

Keep your eyes and ears open. Keep your wicks trimmed and your oil flasks full. Be ready, always vigilant.

Serving the soon coming King of Kings,
